(Chapter 142 of the Code of Ordinances); and to Create Sections 102 (RS SM - Single Family Residence District) and 141 (Residential Development Design Standards) of the Zoning Ordinance (Chapter 146 of the Code of Ordinances), and Accompanying Ordinance. Director of Planning Michael Quint presented the comprehensive zoning and subdivision ordinance amendments that addresses four specific issues: increasing the residential quality, streamlining the development process, updating comprehensively the zoning subdivision regulations that have been historically overlooked and are now outdated, and rectifying typos discrepancies and unclear provisions. He stated that one of the standards that they are proposing is to create architectural standards for single family and duplex residential to include things such as mandating masonry on 85% of every wall. He stated that masonry as defined is very similar to masonry for non-residential: bricks, stone, synthetic stone and things of that nature. Mr. Quint stated that they are also increasing the residential quality by increasing additional landscaping on each family residential lot and by modifying the screening and buffering requirements. Mr. Quint stated the schedule of uses has not been touched since the 1960's and staff is in the process of modifying them. Council member Day asked if the residential architectural standards apply to the Historic District. Mr. Quint stated that they did not apply to the Historic District. Mayor stated that he'd rather changed the definition rather than changing the percentage. Mr. Quint stated that staff looked at other cities and neighboring cities do allow for stucco finishing materials to be counted towards masonry. He stated that the proposed residential architectural standards would only allow stucco for 15 percent of the masonry requirement. Mayor Loughmiller stated that the City is known for its diversity and uniqueness and the proposed ordinances will impact that and not in a positive way. Commissioner Rick Franklin stated that he is concerned with Section 42-8 that provides City staff the ability to appeal

the decision of the Planning and Zoning Commission that would add another layer to the approval and cause a delay for the applicant. Mr. Quint stated that the Planning and Zoning Commission approved a preliminary final plat against staff's recommendation and the reason for the recommended denial was due to the applicant not satisfying requirements in the "PD"-Planned Development District as well as the zoning ordinance. Mr. Quint stated that his goal is not to delay the development process. City Manager Gray stated that there are a lot of changes to the schedule of uses and he feels that there are a lot of significant questions that were left unanswered.

Mayor Loughmiller and Chairman Clark called for public comments.
