- 14-180ME Conduct a Public Hearing to Consider/Discuss/Act on the Request by Matthew King, on Behalf of CR Midway Investments, L.P., for Approval of a Meritorious Exception for Schlotzsky's, Being Fewer than 2 Acres, Located on the Southeast Corner of U.S. Highway 380 (University Drive) and Graves Street**

Mr. Steven Duong, Planner for the City of McKinney, explained the proposed meritorious exception. He stated that Staff recommends denial of the proposed meritorious exception due to the lack of required minimum masonry exterior finishing materials used in the construction of the building.

Mr. Matthew King, 1212 Cabernet Dr., Allen, TX, offered to answer questions regarding the proposed meritorious exception.

Vice-Chairman Bush asked if all of the Schlotzsky's have the same exterior design with the vertical blade feature. Mr. King stated that had been the new prototype for the last few years. He showed an example of the Gaston store.

Commission Member Thompson asked if the blade would be considered part of the signage for the building. Mr. Duong stated that the blade was considered a wall under the City's ordinances.

Mr. King explained the proposed meritorious exception. He gave examples of other businesses that have similar features that were taller than their roofline and got approved by the City of McKinney.

Commission Member Thompson asked what material they planned to use on the proposed blade. Mr. King stated that they plan to use EIFS (Exterior Insulation and Finish System).

Commission Member Thompson asked if Staff wanted them to use yellow brick on the blade. Mr. Michael Quint, Director of Planning for the City of McKinney, stated that the brick could be painted. He also stated that slate panels, limestone panels, or other approved finishing material could be used to get a similar result.

Commission Member Stevens asked Staff if they had some research that EIFS was a lesser quality than brick. Mr. Quint stated that the City's standards place a premium on masonry materials. He stated that the ordinance did not address whether it was a lesser quality material. Mr. Quint stated that the ordinance required an innovative quality or of exceptional design for approval of a meritorious exception. He stated that Staff did not feel a lime green EIFS wall met either of these requirements.

Commission Member Stevens stated that he had researched on-line about found some websites that stated that EIFS could be a higher quality in the long run. He suggested that Staff look at possibly updating the ordinance.

Commission Member McReynolds felt that the proposed building would primarily be considered to be made out masonry materials. He gave an example of the Dunkin Donuts exception that was recently approved that he felt was similar to this request. Commission Member McReynolds agreed with Commission Member Stevens that Staff might need to look into updating the ordinance.

Chairman Franklin asked how much of the total building was built using masonry materials. Mr. King stated that it was 80% or higher. He stated that they were trying to match the WinCo shopping center's materials. Mr. King offered to use Stucco instead

of EIFS. Commission Member Stevens felt that EIFS was a higher quality material than Stucco.

Commission Member Stevens asked how many blades were proposed for this structure. Mr. King said one. He also stated that it would be a multi-tenant building.

Commission Member McReynolds asked if the remaining walls were bricked. Mr. King stated that the tan bottom sections of the walls were proposed to be EIFS as well. He stated that WinCo used cast stone on the bottom of their building. Mr. King stated that he was trying to save some money by using EIFS instead of cast stone. He did not feel that you would be able to tell a difference between the materials. Mr. King stated that he was willing to use cast stone on the tan bottom sections of the exterior walls of the building.

Chairman Franklin opened the public hearing and called for comments. There being none, on a motion by Commission Member Thompson, seconded by Commission Member McReynolds, the Commission voted unanimously to close the public hearing, with a vote of 6-0-0.
