Vice-Chairman Franklin asked Mr. Roberts how they plan to address the issues with the remaining apartments. Mr. Roberts stated that there would be new neighbors to watch over things. He mentioned that they might consider adding some security measures. Mr. Roberts stated that at a future date that they might be willing to purchase that piece of property to redevelop it; however, Mr. Sturkie was asking too much for the property at this time to make it feasible.

Commission Member Gilmore asked Mr. Roberts if the townhomes would be constructed by Mr. Nail. Mr. Roberts said yes.

Commission Member Kochalka asked Mr. Roberts if he plans to use similar materials as the surrounding structures. Mr. Roberts explained that they were working with City staff on the exterior materials to be used. Commission Member Hilton asked Mr. Roberts if he felt they had addressed most of the neighbor's concerns at their meeting. Mr. Roberts stated that the neighbors still had concerns about the project. He stated that change was difficult.

Commission Member Gilmore asked what else could be built on the property. Mr. Quint stated that currently single-family residential, townhomes, and multi-family units could be built on the property. Commission Member Bush stated that any new development would need to meet current standards.

Commission Member Kochalka asked Mr. Roberts what data they used to come up with the \$250,000 price range for the units. Mr. Roberts stated that Mr. Nail could answer that better than he could.

Mr. Gary Nail, Nail Builders, 5000 Whitestone Ln., Plano, TX, stated that the price point is \$225,000 to \$250,000 depending on the unit. He stated that you rebuild as you can in the revitalization of downtowns and that there are old buildings next to new ones. He stated that the townhome units would not be facing the apartment units. Mr. Nail stated that they would be building a nice brick fence between them and the apartment units.

Chairperson Clark opened the public hearing and called for comments.

The following people spoke in opposition of the proposed rezoning request. These citizens had concerns about all of the exceptions to the City's requirements being made for this project, unit density, safety, additional traffic, whether or not the townhomes would be owner occupied, and if the proposed townhomes would stand the test of time.

He stated that each townhome unit would have two parking spaces in the garage and two parking spaces in the driveway for a total of four available parking spaces per unit. Mr. Roberts felt that there would be plenty of landscaping on the property. He stated that the plan being shown was a concept plan and not the official landscape plan. He felt that was why a lot of cities have gone to form-based codes to address these types of issues. Mr. Roberts gave some examples of larger cities where townhomes had flourished. Ms. Michael Quint, Director of Planning for the City of McKinney, stated that Staff has consistently recommended denial of similar requests. He stated that there have been occasions where City Council had approved similar requests.
